

User alert: workflow issues impact other transactions ^[1]

June 22, 2016 by [Employee Services](#) ^[2]

Yesterday's [implementation of new workflows](#) ^[3] is not functioning properly for all transactions, including [student transactions as previously reported](#) ^[4].

Please refrain from entering transactions until we implement a fix. We are working with University Information Systems and our third-party partner to correct the issue as quickly as possible.

We will send a follow-up blog post when we have more information.
