Users experiencing HCM system slowness, ePAR hire timeouts [1]

May 21, 2018 by Employee and Information Services [2]

UIS has received reports of HCM system slowness and timeouts for ePAR Hires. Please refrain from using the ePAR New Hire at this time, while the HCM Systems Team works to determine a solution.

We will send an update as more information is available.

Please contact hcm_community@cu.edu [3] to report any issues.

Thank you for your patience while we resolve these issues.
