

Create or Update Salesforce Campaigns ^[1]

April 12, 2024 by [m.essa](#) ^[2]

In IOS we have three different types of campaigns. The first step in creating a campaign is selecting the record type.

NOTE Please search available campaigns before creating a new to ensure that you are not making a duplicate.

Campaign Record Types

- **Event:** This record type is used when uploading a list of attendees from an in-person or virtual event.
- **Email:** This record type is used when creating an audience for a specific email or series of emails.
- **Marketing:** This record type is used to broadly group marketing campaign efforts.

Campaign Naming Conventions

- **Campaign Name:** 08 SOP custom name details
 - **08** = The first two numbers of a campaign name represent the **campus** on which it was created.
 - 01 = Boulder, 02 = Anschutz, 03 = Denver, 04 = Colorado Springs, 08 = System, 09 = Advancement
 - **SOP** = The next three or four letters of your report name represent the **group ID** that owns the report, in this case, School of Pharmacy. You'll also come across examples like ALUM (for alumni association), HIST (for the department of history), and CHAN (for the Office of the Chancellor). If you are unsure of your group ID, please reach out to a team member for clarification.
 - **Custom Name Details** = You will now name the campaign however you like. Some examples might be the name of a symposium, student tours, or a specific event name.

Create Campaign

- [Clone](#)
- [Create from Scratch](#)

In our Salesforce environment, we already have thousands of Campaigns. For that reason, it

is most common to clone an existing Campaign. Note that a cloned Campaign does not clone the members of that Campaign or the shared settings.

- Navigate to the **Campaign**
 - You could search for the Campaign with the **Global search** at the top
 - You could navigate to the **Campaigns tab** if you recently viewed the Campaign

The screenshot shows the 'eComm' interface with a navigation menu including Home, Chatter, Reports, and Campaigns. The 'Campaigns' tab is active, displaying a campaign titled '08_UIS_20210615_MJJ Test'. The campaign details are as follows:

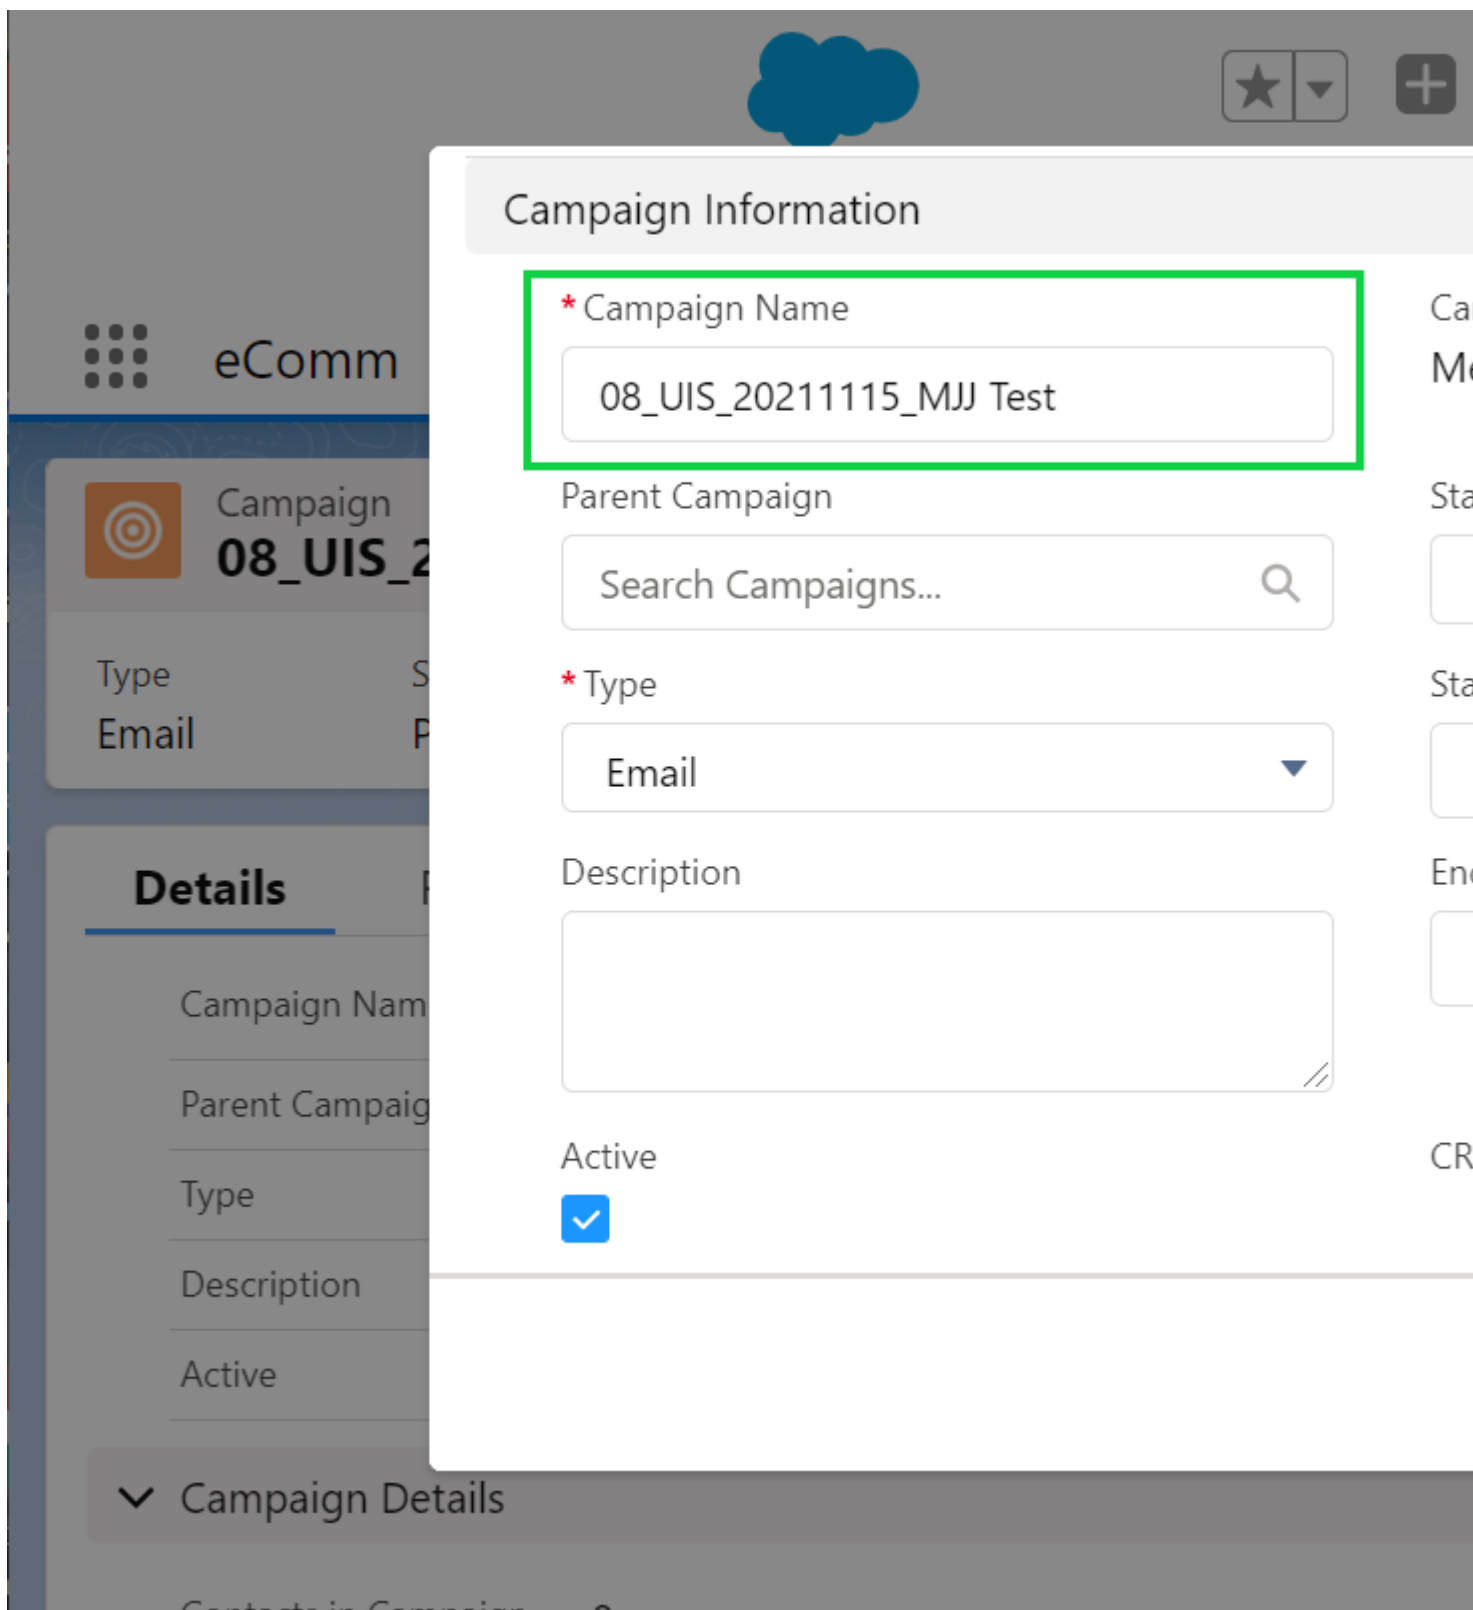

Type	Status	Start Date	End Date
Email	Planned		

Details		Related
Campaign Name	08_UIS_20210615_MJJ Test	
Parent Campaign		
Type	Email	
Description		
Active	<input checked="" type="checkbox"/>	

At the bottom, there is a 'Campaign Details' section with a dropdown arrow.

- Modify the name of the Campaign

- Ensure
 - Type=Event, Email or Marketing
 - Active=Checked
 - Status=Planned, In Progress, or Complete
- Click the blue **Save** button

- Select **Campaign** in the top navigation

- Click **New** in the top right corner

The screenshot shows the Salesforce interface. At the top, there is a search bar and a navigation menu with items: eComm, Home, Chatter, Reports, and Campaigns. The 'Campaigns' menu item is highlighted with a green box. Below the navigation bar, there is a section titled 'Campaigns Recently Viewed' with a target icon and a dropdown arrow. Below this, it says '44 items • Updated a few seconds ago'. A table lists the recently viewed campaigns:

	Campaign Name	Campaign ID
1	08_UIS_20210615_MJJ Test	7015G00
2	08 SSC OT SSC Members & Leadership	7015G00

- Event is set by default, please select the record type most relevant to your use.
- Select the blue Next button in the bottom right
- Enter the **Campaign Name**
- Click **Active** checkbox
- Select **Campaign Type**
- Add additional information to the Campaign, like **Description** and **Start/End date**.
- Select **Save**, the blue button in the bottom right
