To send emails via Pardot, you'll need to access the tool through Salesforce. Follow the quick steps below to navigate to Pardot.

1. **Login** ^[3] to the Integrated Online Services (IOS) org.
2. Click the **App Launcher** (it's the small square of dots in the upper left corner of the screen that allows you to navigate between various Salesforce tools).
3. In the "**Search apps and items...**" field, type Pardot; you'll see the tool in the menu of results.
4. Click **Pardot** in the search results to open the tool.
