0 — FY BEGIN [1]

March 7, 2012 by Carl Sorenson [2]

To be clearer about the meaning of period zero [3], we are changing ACCOUNTING PERIOD prompts to say 0 — FY BEGIN for period zero instead of 0 — JUL. This is just a cosmetic difference. It does not require any change or accommodation in the way you use m-Fin reports.

This change has been in CU's Cognos QA [4] environment for a few weeks now, and will move to the CU Cognos production environment this week.
