Assets And Liabilities Only When Needed [1]

October 4, 2012 by Carl Sorenson [2]

The new **m-Fin BAE BY MONTH – SUMMARY** can display an *Assets and Liabilities* section conditionally, corresponding to whether the section would display in a run of **m-Fin OPERATING SUMMARY**. So when is that? It is when either

- the assets and liabilities are part of the available balance calculation, or
- the org is in Denver | Anschutz Medical Campus and the fund is 30 or 31.

The idea is to show assets and liabilities only when they are necessary for typical financial management.
