Cognos 11.0.10 [1]

May 21, 2018 by Sarju Khadka [2]

The CU-Data QA environment is now running in Cognos version 11.0.10. **The production upgrade will occur in the next few weeks.** This is an incremental “dot version” upgrade from Cognos 11.0.6 to Cognos 11.0.10. You will notice some cosmetic differences between the two versions but they are minor and are not the kind of change that requires training. We expect no changes to your continued use of the m-Fin reports, as well as your CU-Data “My Content.”
