Cognos 11.0.11 [1]

June 18, 2018 by Sarju Khadka [2]

CU-Data production is now running in Cognos 11.0.11. We are experiencing issues with few of our m-Fin reports. When you run these reports, they simply display a blank page with no data. We are actively working with IRM to fix this issue. Below are the reports that are currently not working in production.

- SNP
- SRECNP
- M-Fin FISCAL ROLES
- M-Fin ORG TREE LIST

I will comment below and will let you know as soon as these reports are working again. As you are in CU-Data production running reports, please let us know if you are having trouble with any other m-Fin reports.
