

## **Cognos Production Issue** <sup>[1]</sup>

October 9, 2014 by [Carl Sorenson](#) <sup>[2]</sup>

Cognos sometimes has been slow or timing out loading reports. This is when you first click on a report to call it up onto your screen to run it, or when you use the blue sideways *run report* button to re-run a report. University Information Systems (UIS) is aware of the issue and is actively exploring solutions.
