The Total column in the last section of the compensation summary is sometimes incorrect when Payroll Expense Transfers (PET's) are involved. This calculation has been fixed in Cognos QA in both m-Fin PAYROLL TRANSACTIONS and m-Fin COMPENSATION SUMMARY. These reports will be tested and migrated from QA to production as soon as possible. **[16-Nov-2012 They are in production now.]** While fixing this we went ahead and added a column for earnings type (e.g. RGS is regular salary, SCK is sick time, etc.) to the transactions report.
