CU-Data Upgrade [1]

August 5, 2024 by Sarju Khadka [2]

CU-Data will be upgraded to Cognos 12 the night of August 14th.

As you may recall, we had originally planned to upgrade to Cognos 12.0.3 last March. However, our reporting team identified an issue that required resolution by the software vendor. The vendor has fixed that problem and our m-Fin reports are now functioning correctly.

Although the new CU-Data interface will look different from the current version, all of our m-Fin reports will run and function the same. To ensure a smooth transition to the new version, please consider the following:

- Review our CU-Data Upgrade website [3].
- Look for our OUC New articles on the OUC website [4].

    1. We also announce our News through email (if you have a Finance role, you're automatically on our email distribution list).
    2. If you're not receiving our OUC News emails... and want to ... you can let us know here [5].

- Check out our CPE-eligible webinars [6].

Should you have any questions or concerns regarding the upgrade, please let us know before the production upgrade. You can do so by leaving a comment below or sending us an email at sarju.khadka@cu.edu [7].

Send email when Published:
Yes
