CU-Data Upgrade Delayed [1]

March 7, 2024 by Sarju Khadka [2]

The CU-Data reporting system will be upgraded to Cognos 12 this spring. The go-live date will be communicated as soon as it is known.

Originally, we had anticipated the go-live date to be Thursday evening, March 14, with the upgraded reporting system becoming available on Friday morning, March 15. However, we have identified an issue that needs to be addressed by the software vendor before we can go live. We will keep you informed through the CU-Data Upgrade website, OUC News, and our m-Fin blog as we address and resolve this issue. Thank you for your understanding.
