Get Ready for the Upgrade [1]

February 14, 2024 by Sarju Khadka [2]

On March 14, the CU-Data reporting system will be upgraded to Cognos 12.0.1, introducing an enhanced User Interface (UI) featuring streamlined navigation and additional new functionalities.

While Cognos 12 may appear different from our current version, rest assured that your ability to run m-Fin reports will remain unchanged. To facilitate a smooth transition to the new version, consider the following options :

- Review our CU-Data Upgrade website [3].
- Look for our OUC New articles on the OUC website [4].
    1. You'll find News articles on the OUC website.
    2. We also announce our News through email (if you have a Finance role, you're on our email distribution list).
    3. If you're not receiving our OUC News emails... and want to ... you can let us know here [5].
- Check out our CPE-eligible webinars [6].

Should you have any concerns or questions regarding this new version, we encourage you to share your feedback before the production upgrade. You can do so by leaving a comment below or sending us an email at sarju.khadka@cu.edu [7].
