Incompatible Access [1]

June 12, 2012 by Carl Sorenson [2]

The new report **m-Fin JOURNAL ENTRY APPROVER INCOMPATIBLE ACCESS** shows JE's having the same approver as creator. It is something like the pre-m-Fin Cognos **Journal Entry Incompatible Access** report, but works better with today's web browsers, and works better for searching the new style CU PeopleSoft user ID's.

This report is used mostly by your campus Accounting/Controller offices. It has been in Cognos QA for a while and will migrate to Cognos production this week.
