m-Fin 1.5 Goes To Production [1]

April 8, 2011 by Carl Sorenson [2]

New versions of the initial seven m-Fin reports, plus one new report, are migrating to CU's production Cognos environment today. The changes to the reports were described on the blog post that announced them for testing:

m-Fin Reports Refreshed in QA [3]

If you have report views saved in your "my folders" tab with your own preset prompt values [4] these should continue to work, running the new versions of the reports. The reports now display the report view name on the footer of each output page. You can change the name of your report view if you want this text to be different.

Display Title:
m-Fin 1.5 Goes To Production
