

m-Fin ACCOUNT NUMBER ^[1]

October 22, 2024 by [Sarju Khadka](#) ^[2]

We have made a couple of changes to the m-Fin ACCOUNT NUMBER report.

We have added a few new preset buttons on the second prompt page of the report. These can be used alongside the standard buttons provided.

In addition, we have also added a new radio button prompt to exclude rows with no activity for the fiscal year.

The screenshot displays the 'ACCOUNT NUMBER' report interface. It features several levels of account selection: LEVEL 3 (EXPENDITURES + TRANSFERS), LEVEL 4 (ACCT TYPE), LEVEL 5, and LEVEL 6. A 'Reprompt' button is visible on the left. On the right, there are 'FUND' selection options (1x, 30, 2x, 20, 22, 26, 29, 72) and a 'New presets' button. A red box highlights the 'New radio button filter: Eliminates rows where no activity in the FY.' annotation. Below the account selection, there is an 'ACCOUNT CODE' section with 'From' and 'To' fields, and a 'BEN PRINCE' button. At the bottom, there is an 'ACTUALS FILTER' section with 'FY ACTUALS FILTER: YES' and 'FY ACTUALS FILTER: NO' options, and a 'Discard specialties that have no FY ACTUALS?' checkbox. The interface also includes 'ACCT SUBTOTALS' and 'EXTRAS' sections.

This updated version of the report is now available in cu-data production.
