m-Fin Cognos Reporting System Town Hall Meetings [1]

February 15, 2011 by Carl Sorenson [2]

This week OUC and I finish up our series of Town Hall meetings introducing m-Fin reporting to the Boulder, Colorado Springs, Denver, and Anschutz Medical campuses. It has been my pleasure to present our work to you. The m-Fin reports are available in CU's Cognos production environment [3]. If you find you do not have the necessary access privileges you may contact calvin.anderson@cusys.edu [4]

You are invited to sign up for hands-on training:

Boulder Campus: Hands-on Training [5]

Denver Campus and Anschutz Medical Campus: Hands-on Training [6]

Colorado Springs Campus: not yet scheduled.

Some things to remember at this point in m-Fin's development are

- m-Fin reports currently offer summary only to fopps/speedtype. Eventually there will be other levels of summary available but they aren't there now.
- m-Fin reports will continue to be improved. This means they can change.
- New m-Fin reports are in the works as well.
- We still hope to upgrade to Cognos 10 in March. The reports will run the same way but the buttons you use to launch them will be re-arranged some.
