m-Fin Is Online [1]

December 11, 2015 by Carl Sorenson [2]

m-Fin reports are up and available now. Fiscal years 2015 and 2016 have been loaded. Detail for older fiscal years will become available next week, eventually back to fiscal year 2000.

Known Issues:

- The conversion processing for CU is still running in the finance system, assigning project attributes. It is expected to continue for a few more days. So project attributes (e.g. project principal investigator and f&a rate) are missing for projects it has not reached yet.
- The account rollup and org trees in the Finance system, and therefore the CIW and m-Fin, are not up-to-date. These are used by m-Fin reports for subtotaling and/or summarization.
