

m-Fin OPERATING SUMMARY fix ^[1]

June 23, 2017 by [Carl Sorenson](#) ^[2]

For some runs by employee, m-Fin OPERATING SUMMARY was reporting inflated dollars. This is fixed now.

The problem occurred only when:

- using the FISCAL ROLES EMPLOYEE prompt
- not also using the specific fiscal role prompt to limit to just a single fiscal role
- the employee has more than one fiscal role for a given speedtype/fopps (e.g. employee is the pgm manager and also the org manager)
