m-Fin Production Migration [1]

January 25, 2012 by Carl Sorenson [2]

This migration will occur this evening. It includes two new reports and a change to m-Fin FINANCIAL DETAIL.

Two New Reports

These reports have been gestating in Cognos QA for a while. Now they arrive in Cognos production.

- **m-Fin SPEEDTYPE LIST** [3]
  A master list of speedtypes. In the Look Ups folder below the Finance folder.
- **m-Fin PAYMENTS RECEIVED** [4]
  Shows payments CU has received. Useful for clinical trials.

Detail Report Refactored

To *refactor* means to improve the internal structure without changing the external function. **m-Fin FINANCIAL DETAIL** has been refactored for performance improvement on runs looking for a specific account code within an orgnode. This is a less frequent but nevertheless important use of this report. Performance for other runs remains the same.
