m-Fin Production Migration [1]

December 8, 2011 by Carl Sorenson [2]

Several m-Fin reports have migrated to production. Most of these are enhancements to existing reports but there is a new one too. The most significant changes are:

1. m-Fin FINANCIAL DETAIL – Formatting and prompting improvements [3].
2. New report for drills to Student Finance data from m-Fin FINANCIAL DETAIL.
3. New report m-Fin ABNORMAL BALANCE.

For a more complete description of changes migrated see Abnormal Balance And Other Reports Now In QA [4].

My thanks to PBS's Peggy Watson, Demetria Ross, and Jan Lund as well as OUC's Jaime Mendez and Ryan Day for excellent testing.

Issue Found

The new drills from m-Fin FINANCIAL DETAIL to show entire Journal Entry are not working in production. I will post a comment here when we get this fixed. It works in Cognos QA but for some reason it does not work in production.
