

m-Fin PROJECT ENDING STATUS ^[1]

March 19, 2021 by [Sarju Khadka](#) ^[2]

Would you like to see all the projects that are ending/ended in a selected time period that may also be overspent or underspent? Then, please try the new m-Fin PROJECT ENDING STATUS report available in [CU-DATA QA](#) ^[3]. You can also render the report using PROJECT ACCOUNTANT, PROJECT FISCAL MANAGER, and/or PROJECT PRINCIPAL and review financials for a high number of projects at once. **[now in production]**

The report will highlight the BUDGET REMAINING AMT column if the project is overspent, and highlights the BUDGET USED PCNT column if the project is underspent.

If you like the m-Fin PROJECT SPENDING TRENDS report, then you will like the new m-Fin PROJECT ENDING STATUS report.

There are a few differences between the two reports:

- The new report does not have the GAUGE CHARTS, HOT FILTER, and EXCLUDE PROJ ID prompts.
- The report lists the Award Code column as a default, and therefore, is not removable.
