m-Fin PROJECT LIFECHART [1]

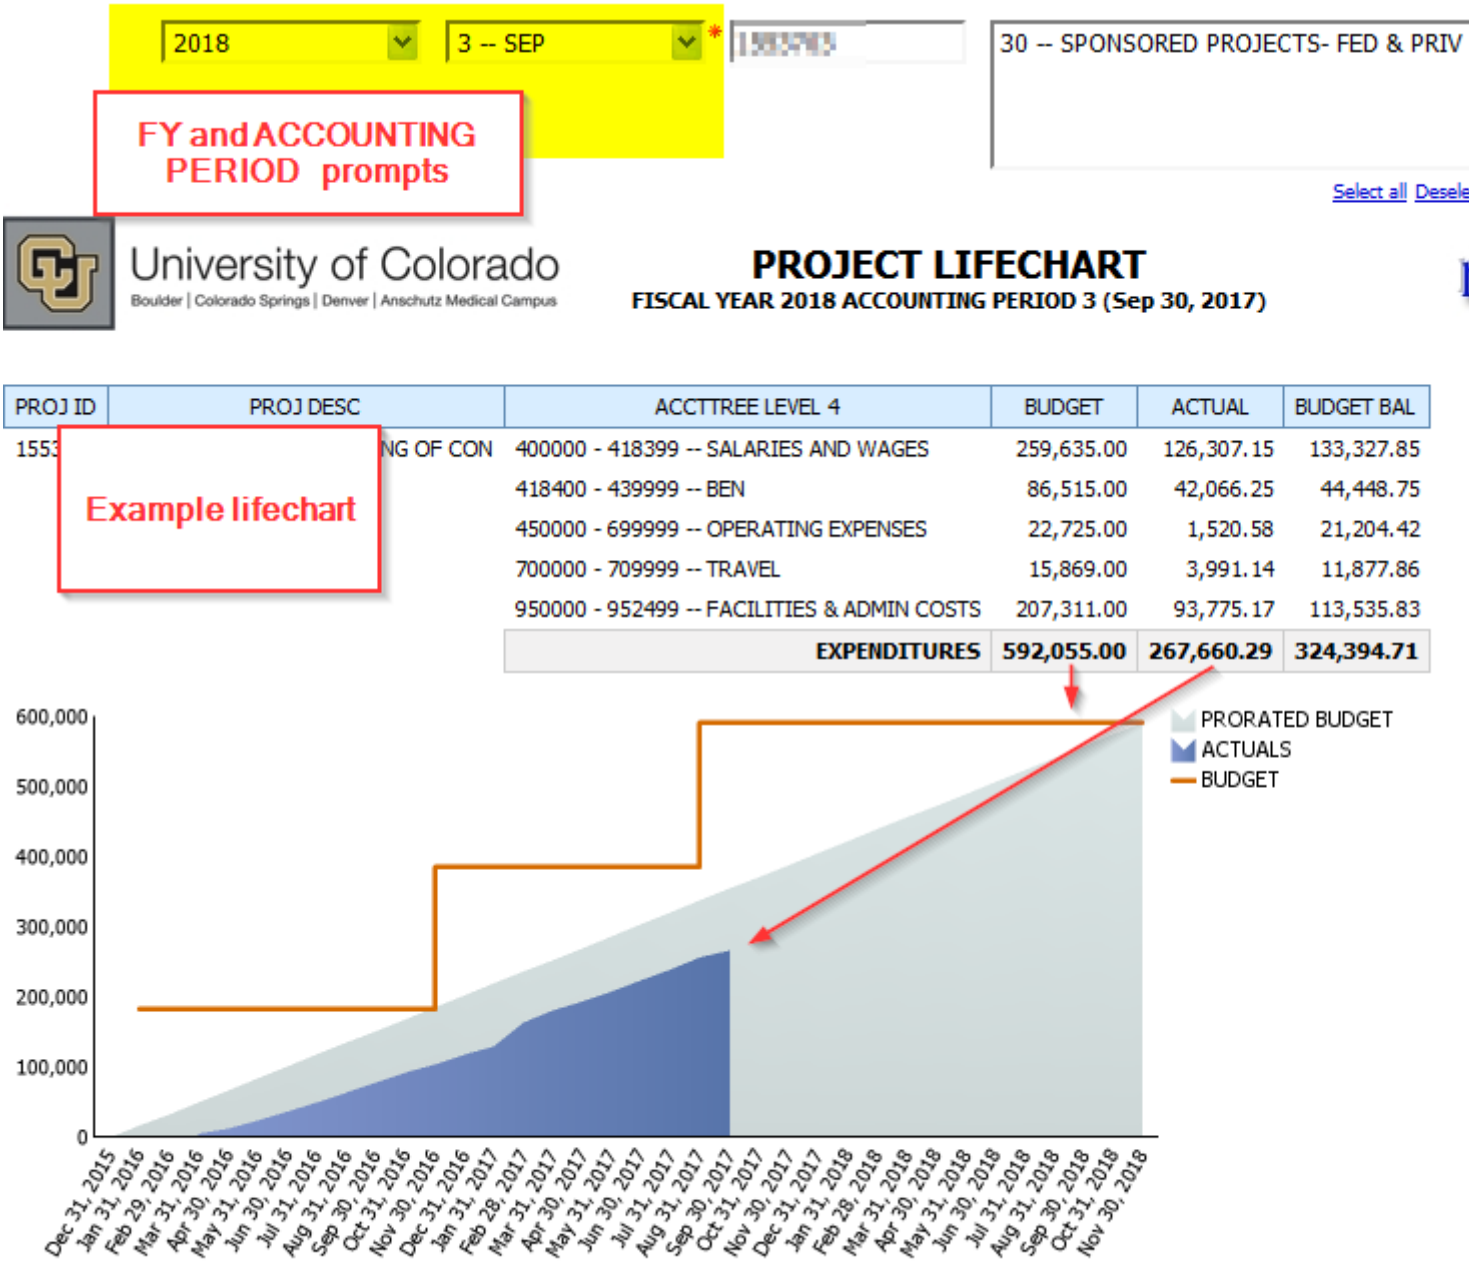

September 27, 2017 by Carl Sorenson [2]

We are adding FISCAL YEAR and ACCOUNTING PERIOD prompts to m-Fin PROJECT LIFECHART. This was suggested to us by a member of the Boulder RAM group (Research Administrators).

Now if you are running other reports for the prior accounting period, you can run a corresponding m-Fin PROJECT LIFECHART. Without these new prompts, the lifechart was always current.

The new parameters help in particular when drilling to the lifechart from m-Fin PROJECT ONE-LINER. When running the prior period, the resulting lifechart will agree with the amount upon which you drilled.

This is available to you now in the CU-Data QA system. If no problems are found it will migrate to production in a few days. **[09-Oct-2017 migrated to production]**
