

m-Fin revenue and billing limits ^[1]

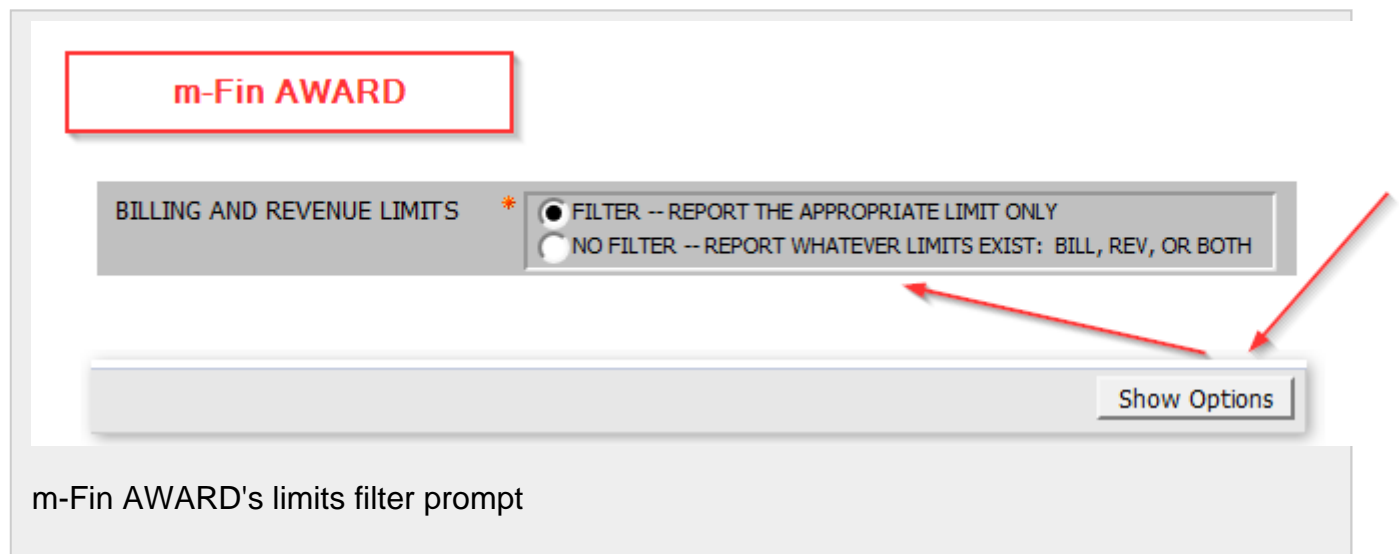

August 11, 2017 by [Carl Sorenson](#) ^[2]

For sponsored projects, m-Fin now will show either the revenue limit or the billing limit, instead of showing both.

For projects that have limits:

- Revenue limit will be shown for Boulder and UCCS letter of credit
- Billing limit will be shown for all others

There will be one exception, a place to override this default. m-Fin AWARD will have a *show options* prompt that can set both of the limits to display, assuming both do indeed exist for your award code. We do not expect that this feature will be used often, and so we are implementing it just in this one report.

The screenshot shows the 'm-Fin AWARD' interface. At the top, there is a red-bordered box labeled 'm-Fin AWARD'. Below it, a grey bar contains the text 'BILLING AND REVENUE LIMITS' followed by an asterisk. To the right of this bar are two radio button options: 'FILTER -- REPORT THE APPROPRIATE LIMIT ONLY' (which is selected) and 'NO FILTER -- REPORT WHATEVER LIMITS EXIST: BILL, REV, OR BOTH'. Below these options is a large, light grey rectangular area. At the bottom right of this area is a button labeled 'Show Options'. Two red arrows point from the right side of the image towards the 'Show Options' button. Below the large grey area, the text 'm-Fin AWARD's limits filter prompt' is displayed.
