We have a new report for you to test, m-Fin REVENUE AND EXPENDITURE TOTAL FOR MONTH. It is now available in [CU-Data QA](#) [3]. **[now in production]**

This report looks very much like the m-Fin REVENUE AND EXPENDITURE TOTAL report. The only difference between the two is the new report presents data for just the month entered on the accounting period prompt. That means if you run the report for the month of December, each column presented in the report displays data just for the month of December, i.e. December budgets, December actuals, and December encumbrances.

Like the m-Fin REVENUE AND EXPENDITURE TOTAL report, this report too, pages by fund and then an all funds total at the end. Individual fopps/speedtypes are not shown because they are combined, summed together.
