m-Fin SPEEDTYPE ONE-LINER [1]

May 18, 2017 by Carl Sorenson [2]

We are fixing an issue with prompts in m-Fin SPEEDTYPE ONE-LINER. Some of the prompts on the HTML output have not been working on subsequent clicks after they are first used (the web page quickly re-renders but nothing actually changes in the report). Expect the fix to migrate to production in the next day or two. If you would like to test, the fixed version is available now in cu-data.qa.
