m-Fin SPEEDTYPE ONE-LINER enhancements [1]

October 10, 2022 by Sarju Khadka [2]

We have made a few enhancements to the m-Fin SPEEDTYPE ONE-LINER report. Below are the changes:

- Added cascading org tree prompts–This prompt allows you to browse your way up and down the CU's org tree.
- ORG|ORGNODE prompt now forces uppercase.
- FUND prompt disallows the selection of all funds. To select all fund types, click on the clear button.
- Added FUND prompt preset buttons.
- ORG DESC and OTREE L05 columns are added as optional fields to the EXTRAS prompt.

This updated version of the report is available to you for testing in CU-Data QA [3]. If no issues are found, the report will be migrated to production in a couple of days. **[now in production]**
