Missing Reports? [1]

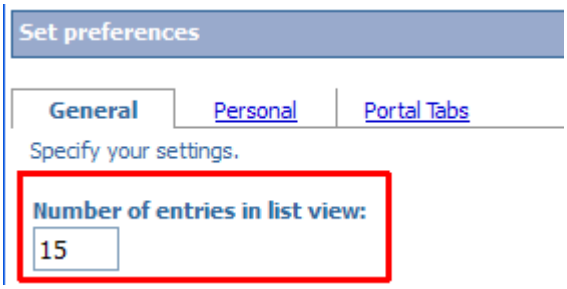

October 19, 2011 by Carl Sorenson [2]

Looking for an m-Fin report that seems to have gone missing? Perhaps it is simply on the next page.

The Cognos environment that lists the available reports is called *Cognos Connection*. Its default is to show up to 15 items at a time. When there are more than 15, paging controls in the upper right become active. Use these controls to advance though the list or temporarily change the size of the list.
