PET drill fix [1]

August 18, 2016 by Carl Sorenson [2]

Sometimes drills from m-Fin FINANCIAL DETAIL to m-Fin PET were incorrectly returning "no data found." This is fixed now.

These drills are available if you select the m-Fin FINANCIAL DETAIL EXTRAS option *PET OPER ID, DATE, SEQ*, and you do indeed have some PET data (payroll expense transfer [3]). The error happened only when drilling to FY 2016 PET's when the detail run was set to get data from more than one FY.
