Portal To Cognos Handoff Fix [1]

February 19, 2013 by Carl Sorenson [2]

This evening a fix migrates to production that should prevent Cognos from reprompting for login credentials as it sometimes has been doing. This is for the *Public Folders* and *My Folders* links, under *REPORTING* in the CU Resources tab in your campus portal – the two links from portal to Cognos (see https://content.cu.edu/controller/traininghelp/stepbystep/reporting_logging_in.html [3]). Clicking either of these links should take you directly into Cognos without having to log on again.
