Position II gets account prompts [1]

November 1, 2016 by Carl Sorenson [2]

m-Fin POSITION BUDGET II now has optional prompting for account tree level05 or level06. This is on the second page of prompting. Now you can, for example, narrow the focus of a run to be just classified staff or just faculty. My thanks to Irene in Boulder's Office of Information Technology for input and feedback on this enhancement so far.

This new version of the report is available to you now in Cognos QA [3]. Please post a comment here on this blog page if you have feedback. Unless I hear that changes are needed this will move along into production at the end of this week.
