Reburbished Balance Sheet Reports [1]

February 18, 2015 by Carl Sorenson [2]

We've improved the m-Fin balance sheet reports, refining the prompting and improving the internal workings of the reports. We believe this will fix the XQE-CM-0004 problem, an intermittent abend [3] that was happening on drills.

The reports are available for testing in Cognos QA: **[02-mar-2015 migrated to production]**
