User Testing Cognos 11.1 R5 [1]

February 21, 2020 by Sarju Khadka [2]

We have been preparing to upgrade CU-Data from Cognos 11.1 R2 to Cognos 11.1 R5. If all goes as planned, we will be running Cognos 11.1 R5 in production on Thursday, February 27th, 2020. However, this version is currently available for you to test in CU-Data QA [3].

This upgrade is more of a security patch delivered as an upgrade. Therefore, you'll notice there are no major differences in functionality or appearance between the current version and the version we are upgrading to. We expect that you will be able to continue using m-Fin reports the same way as you do now including your 'My Content'.

If you find any issues with this version of Cognos, please let us know before the go-live date next week.
