No UIS Maintenance Windows before Classes Start in August Due to Semester Start [1]

August 13, 2018 by UIS Communications [2]

UIS has opted to have no maintenance windows leading up to the semester starting for University of Colorado campuses this August.

Fall 2018 classes will start on Aug. 20 and Aug. 27, and leading up to this busy time there will be no production or nonproduction maintenance windows. UIS has no maintenance windows to allow employees continuous system access while preparing for this busy time, and to limit changes prior to this critical time for CU's campuses.
