New CUSP Submission Improves Lab Operations [1]

April 5, 2013 by normandy.roden [2]

Our latest CUSP submission describes an innovative laboratory cleaning process that saves times, maintains bioexclusion requirements, and decreases chemical/water use. The new Laboratory Mopping System Evaluation Process at Anschutz Medical Campus has been presented to national audiences and is creatively detailed on the impressive Mopping System poster (see www.cu.edu/controller/initiatives/cusp/wp-content/uploads/2013/04/Final-Mopping-System-Poster1.pdf [3]). For additional information, catch up on the CUSP website: www.cu.edu/controller/initiatives/cusp/?p=403 [4]. And remember ... the submission deadline for 2013 is April 30!
