CPE Classes in October: Yes, You Can Understand those Financial Reports! [1]

October 20, 2020 by normandy.roden [2]

Are you friends with your financial reports?

Many employees dread them. But all it takes is a little understanding -- and the help of a friendly expert walking you through them. Here's your chance!

This month, we're launching a new series of Continuing Professional Education (CPE) courses focused on **Mastering m-Fin Reports.**

Here's what you get:

- CPE credit for the initial live webinars, which feature expert advice on how to run and read key m-Fin reports in CU-Data
- Access to mini-webinar recordings for the individual featured reports
- Ability to ask questions and get answers, during the live webinars and even when you're watching recordings

Through in-depth demonstrations and discussions, you'll learn when and why each report is useful to you ... the various data options you can select for each report ... and how to interpret the data produced in the context of CU business operations.

(You're welcome!)

Course information and sign-up links are available now on our CPE Schedule and Registration page. [3]
