CPE February Course Feedback is ... Great! [1]

March 3, 2013 by normandy.roden [2]

On Feb 5 and Feb 13, the OUC presented its 3rd quarter in the FY 2013 CU CPE for CPAs Program. The combined days provided up to 13-1/2 credits (valued at almost $18,000) in continuing professional education for certified public accountants, auditors, and other employees. We were particularly pleased to welcome 21 new participants. Overall evaluations remain high, with 99% of attendees rating the instructors as effective, 98% agreeing that course content was relevant, and 100% affirming that learning objectives were met. Our next quarter's courses are coming up soon. On Wed, April 10, we'll offer GASB Updates, Emotional Intelligence, and Fiscal Roles in Financial Systems and Reporting (all new courses). The following Tues, April 16, we'll present Understanding Internal Controls, and Cash Controls (popular repeats). Employee registration opens Mon, March 11.
