Elevate: FIN Upgrade - Video Helps You Get Ready for Changes in the Portal [1]

October 14, 2015 by normandy.roden [2]

[3]In early November, you'll find a remodeled CU Resources tab in your employee portal. We've created this short video to help you get ready for some of the changes.

Navigation moves from left to top.

In the new CU Resources tab, the navigation menu moves from the left side to the top of the tab. Menu items remain visible while you do your work -- and this helps you move more efficiently from one site or system to another.

In addition, some of the menu names change. For example, Business Applications becomes Business Tools.

Tiles highlight information.

The main portion of the new CU Resources tab displays rows of tiles. Tiles link to popular places to go within the portal ... and many tiles display summary information on the tile face itself.

Dashboards present details.

In the new CU Resources tab, you have new ways to view information and take action on items requiring your attention. The Manager Dashboard and the Benefits Dashboard are just two of these features.

Watch the video [4]and get ready for the new CU Resources tab!
