We spent a lot of time this past week talking to campuses about requirements.

A few things from last week:

- Completed Boulder user group meetings learned about additional requirements and got great feedback. Thank you!
- Completed a General Ledger deep dive at Anschutz gained more requirements and had excellent discussions. Thank you!
- Continued working on specifications for development.
- Discussed budgeting with CU Denver. Got some good insight into the web applications they use talked about replacing them with PeopleSoft forms.
