Elevate: FIN Upgrade - What's Happening? (recent recap - thru 10/3/14) [1]

October 7, 2014 by normandy.roden [2]

It's been a busy couple of weeks with some key developments for the FIN 9.2 Upgrade. To give you a sense of what's been going on, consider that:

- The communications team completed their branding work (designed logo and visual assets) for the combined upgrade. Look for the energizing new Elevate text and image that reminds us why we're upgrading our systems.
- We've scheduled Deep Dive sessions at all campuses … and are enjoying the interactions with our knowledgeable users! (For more on Deep Dives, see previous OUC News post [3]).
- We've expanded our communication methods to include regular use of this OUC News blog [4] (sign up to receive notices in your inbox!), a redesigned FIN Upgrade website [5], and a commitment to storing all presentations, documents, decisions, etc. on an accessible site (more on this in another FIN Upgrade blog post)

So that's a bit of what's going on here. As always, feel free to send us your feedback (www.cu.edu/controller/forms/peoplesoft-finance-pain-pointstalking-points [6]).
