Finance Access - The Right Way [1]

March 9, 2012 by (not verified) [2]

Do you work in the PeopleSoft Finance System (FIN)? If you do, then you have had 2 user IDs since last fall. Both have been valid for months. In the near future, however, your old ID will no longer be valid. When that happens, you need to know how to sign in to FIN with your new ID. But here's the good news: When you click the link to FIN in your new campus portal, your new user ID is automatically used! (This isn't immediately apparent to you because you sign in to the new portal with your desktop username and password – and you are securely transferred to FIN without having to present new credentials.) So, effective immediately, please access FIN the right way: through your new campus portal. For more information, see our newsletter article [3]. For how to work with your new user ID, see our Step-by-Step Guide, New PeopleSoft User IDs [4].
