Financial Systems Access Request Form -- Improved! [1]

June 2, 2013 by normandy.roden [2]

Need access? If you're looking for authorization to use the PeopleSoft Finance System and/or CU Marketplace, look no further than the improved Financial Systems Access Request form available online at www.cu.edu/ums/security/CUonly/AMPS/accessrequestforms.php [3]. (Note: We provide links to the access request form from both the OUC and PSC Forms webpages.) The recently revised form provides a more effective and efficient process for requesting financial and procurement roles ... and clarifies training requirements to obtain the desired access. Many thanks to Travis Chillemi, our Strategic Communication Technology Manager, for taking on the significant project of form improvement here.
