Looking for Finance Training? SkillSoft Online Course Reorganization [1]

June 23, 2014 by normandy.roden [2]

If you're looking for finance or procurement training, note that the online courses have been reorganized in SkillSoft. The new approach relies on campus and department folders so employees can zero in on courses relevant to their specific location.

New file folder structure means new navigation. You'll still log in to your campus portal and select Training – Start SkillSoft – Catalog – University of Colorado-Courses. Then it changes: Select your campus and pick the desired topic/folder within your campus.

Questions? Contact FinProHelp@cu.edu [3].
