Listen, learn, and practice at an HCM Structured Lab

HCM will host structured labs on all CU campuses through April 21.

Structured labs include an opening presentation and demo on the PET/Funding Entry business processes, followed by individual data entry practice. *Note: In order to use the training environment during a structured lab, you must already have access to HCM. You will have the same level of access during the lab that you currently have, and no additional access will be given at the session.
