# Online Courses reorganized in SkillSoft [1]

January 17, 2014 by normandy.roden [2]

Need training? Take a look at the recently reorganized folders in SkillSoft. Now, when you're searching for our required or recommended online courses, you'll find them under a more logical filing system. The new navigation for online courses offered by the Office of University Controller (OUC) and the Procurement Service Center (PSC) is: Log in to your campus portal > on the CU Resources tab, select Training > select Start SkillSoft > select Catalog. Open the University of Colorado - Courses folder > select Finance (or select Procurement). In the Finance folder, you'll see the online courses on the Cognos Reporting System, PeopleSoft Finance, Gift Fund Management, and Fiscal Code of Ethics. In the Procurement folder, you'll find courses on Concur, CU Marketplace, Purchasing, and Travel. Previously, all these courses were listed under a single Budget & Finance folder. Now, they're much easier to find. Many thanks to Erin Russell of Employee Learning & Development (ELD) for creating these neatly organized folders. Questions? Contact your friendly neighborhood FinPro Help Desk consultants at 303.837.2161 or FinProHelp@cu.edu [3]. Happy Learning!
