OUC Supports ‘Take Your Child to Work Day’ Activities [1]

May 22, 2013 by normandy.roden [2]

At 1800 Grant Street, this year’s Take Our Sons and Daughters to Work Day embraced the theme “Let’s Move.” Picking up on the Be Colorado initiative, the April event offered mental and physical activities for children of OUC and other System Administration office staff. Heather Hoyer, OUC’s Procurement Training Specialist and Forms Developer, assisted the System planning committee in designing learning opportunities and an obstacle course for children aged 6-16 years. Highlights included interviews with CU employees, money tips, healthy choice discussions, and a series of movement activities. The OUC-sponsored jumbo-bowling proved to be a popular portion of the building obstacle course. Thanks to all who helped plan activities that morning … and to all who participated!
