# Payroll Encumbrance Issues for Sponsored Projects [1]

August 11, 2017 by normandy.roden [2]

We've fixed a payroll encumbrance problem for grants – and you'll soon see correct information on your financial reports.

**What was the problem?**

We've seen incorrect payroll encumbrances on some (not all) Grants SpeedTypes.

The problem occurred when new budget was added to a project. In these cases, the funding end date for the project was not properly updated, causing some payroll encumbrances to end early.

**We fixed the issue this week**

The FIN team has implemented a new process to address this situation.

Your financial reports will reflect this change after the next encumbrance process run. Typically, HCM runs this weekly.

**Questions?**

Contact the HCM Call Center at 303-860-4200 extension 2, or HCM_community@cu.edu [3]
