PeopleSoft is getting an upgrade. Concur and CU Marketplace are staying put. [1]

April 28, 2014 by normandy.roden [2]

[3] Concur and CU Marketplace are staying put.

The PeopleSoft HCM/Finance 9.2 Upgrade Project will bring several new and exciting enhancements to both Finance and HCM. There are two things that will not change as a result of the upgrade: Concur Travel and Expense and CU Marketplace. Concur will remain in place for booking trips, identifying travel arrangers, processing travel and other reimbursements, as well as reconciling Procurement Card expenses. CU Marketplace will continue to serve as the system for purchasing and payment processing for the University. We'll be talking more about features soon. Stay tuned.
