Yes, Virginia, There are More than 15 Reports [1]

April 27, 2012 by (not verified) [2]

We still respond to questions like “What happened to all the Cognos reports?” Your default display presents the first 15 reports. To see the remaining reports, use the entries scroll area (top right of screen, where it says 1-15). Click the double arrow to the right and the next 15 will show. Good News: You can change your preferences to default display more than 15 reports by clicking on the arrow next to the person-icon (next to the little house). Set your preferences higher than 15 and you will see more than 15 reports displayed on the initial screen. For more info, read Carl’s blogpost [3].
