

New Concur Enhancement Released ^[1]

May 14, 2025 by [Staff](#) ^[2]

Concur has updated some functionality on audit rules that trigger on “Submit.” The warnings for these Submit-triggered audit rules will now disappear once they are resolved on the report. As a result, users will no longer need to click “Submit” again to clear these warning messages. Previously, the submitter would see the warnings on the report, even after correcting the issue, until the report was submitted. This enhancement is already effective in Concur where applicable!
